

Marcel De Cleer
Retrospectiv N°2

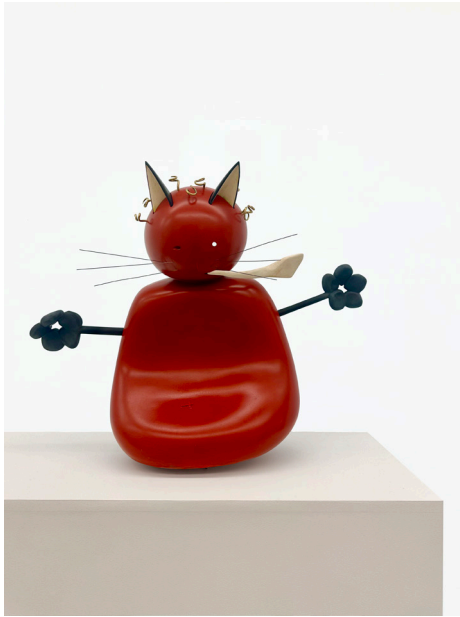

When I imagine Marcel De Cleer's facial expression upon reading the title "Retrospective N°2" a grin proves difficult to suppress. His previous retrospective contained only 3 works. Marcel De Cleer doesn't let himself get rushed, or just barely, with a lot of misbehaving, fussing and fumbling!

The least patient artists often create work that makes the task of a moniker comparable to Napalm Death's world hit "You Suffer." De Cleer is no exception in this, but in just about EVERYTHING else it is!

Few get away with so much direct honesty, because behind that raging, infernal fuss is a very small heaven indeed.
